RUBIKS TECHNOLOGY

They can’t call you from work.

Your next client is sitting at a desk.

⚠ THE PROBLEM

9 to 5 is when you're open. It's also when they can't talk.

Your office hours

9:00 AM–5:00 PM· at work

7:40 AM
on the train

12:30 PM
at lunch

6:15 PM
at home

They can reach you before work, at lunch, or after 6. Are you reachable then?

RUBIKS TECHNOLOGY

WAY 1

Let them text.

Text us

Same number as your office line

A text is silent. Nobody at the next desk hears it.

WAY 2

A form they can finish in a minute.

Ask on the call:

- ~~Employer name~~
- ~~Exact dates~~
- ~~File uploads~~

Name

Best number

What happened?

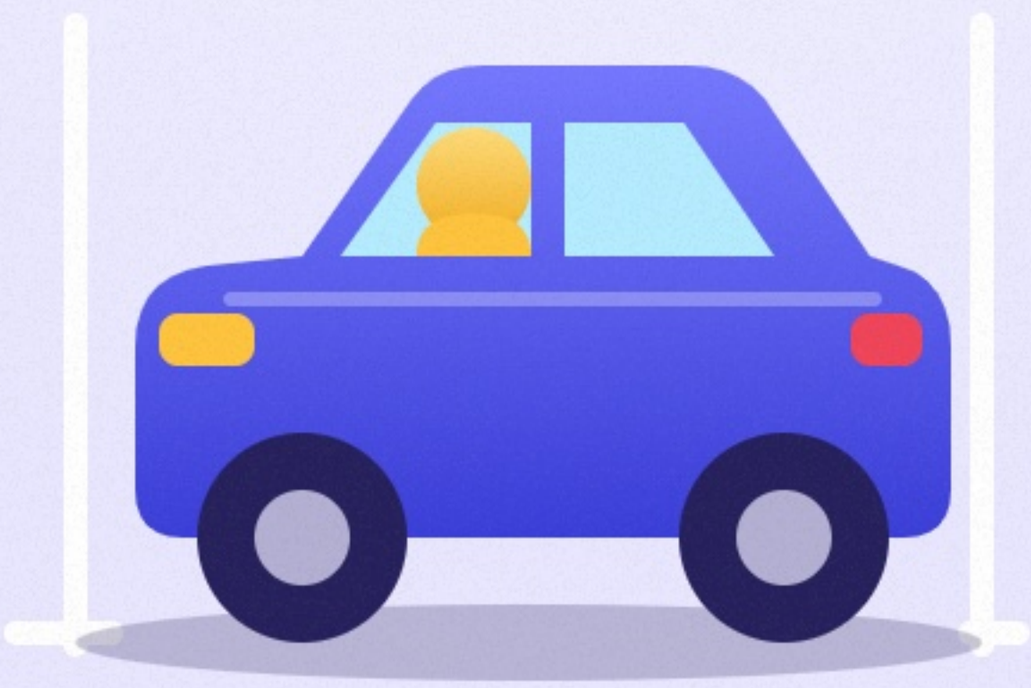

Send

Three fields. Save the long questions for the call.

WAY 3

Lunch and after-6 call slots.

12:30 PM

	Mon	Tue	Wed	Thu	Fri
12:30					
5:30					
6:30					

Offer times they can take from their car, not from their desk.

RUBIKS TECHNOLOGY

WAY 4

Ask before you call them back.

“Is this a safe number to call?
Is it OK to leave a voicemail?
What time works best?”

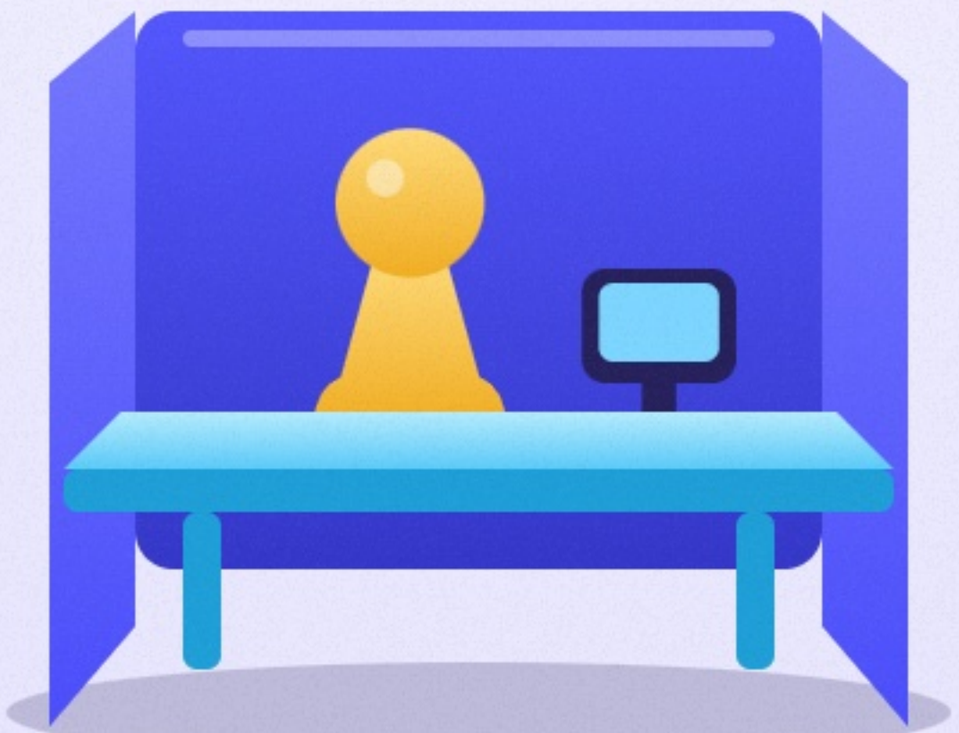

~~Calling the work line~~

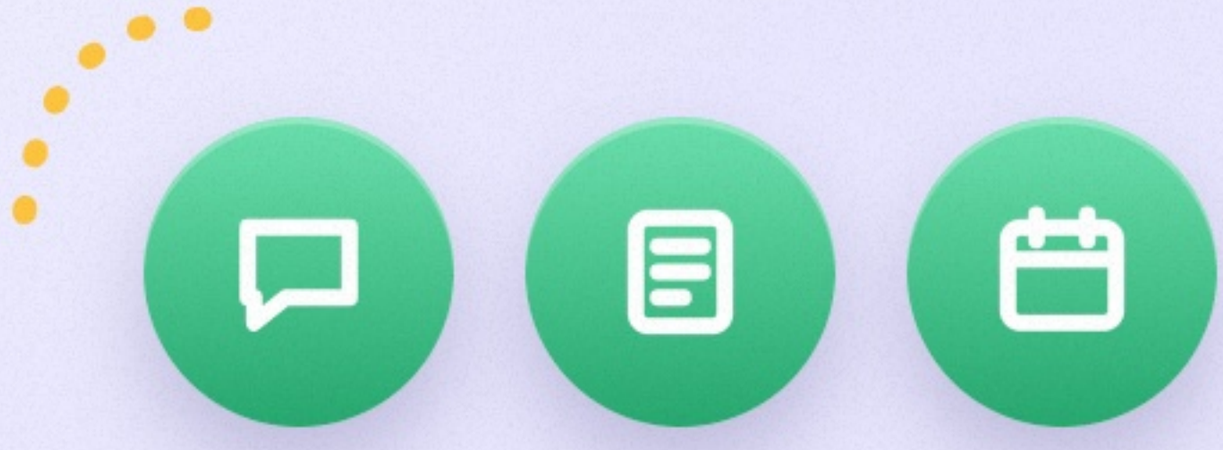

Text first

One careless voicemail at their job can cost them more than the case.
