RUBIKS TECHNOLOGY

THE FIRM

# Six lawyers. Injury. One intake person.

CASE FILE #04

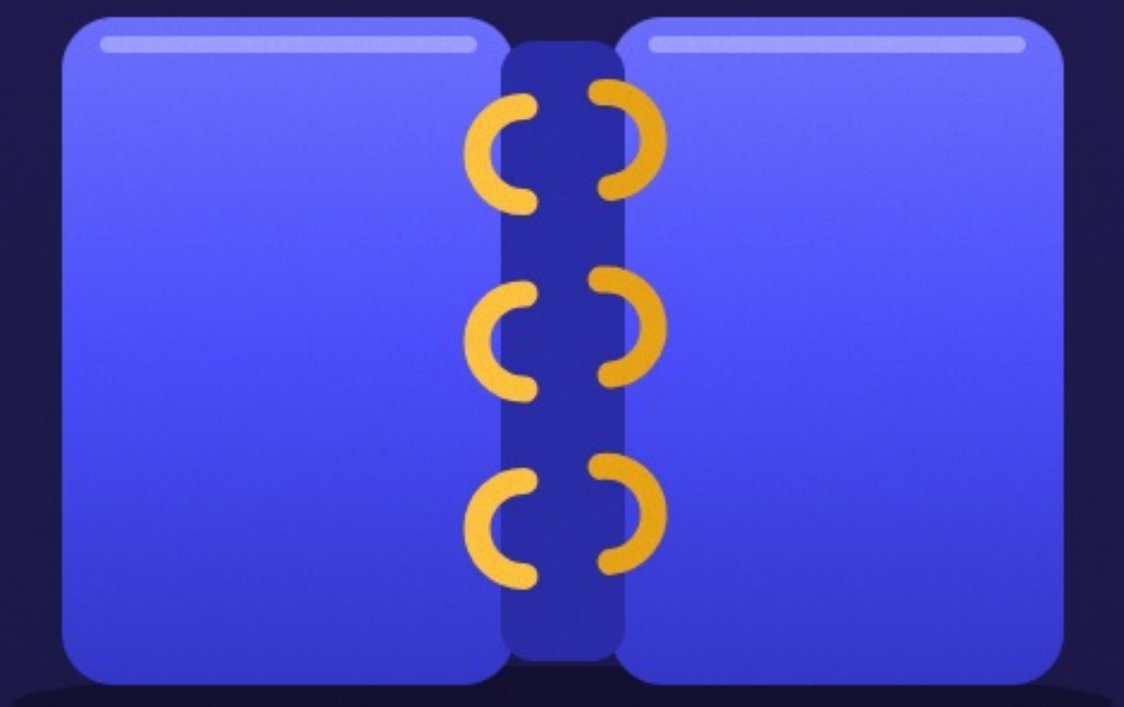

For four years she answered every first call.

RUBIKS TECHNOLOGY

WHAT LEFT

# What was only in her head.

- The call script
- Which cases to take
- Who to call, and when

Never written down

- The follow-up routine

Intake didn’t slow down. It started over.

FIX 1

# A one-page intake playbook.

## INTAKE PLAYBOOK

1. Greeting
2. Three questions
3. Cases we take
4. Who gets the handoff
5. Follow-up days

If it fits on one page, a new hire can use it on day one.

RUBIKS TECHNOLOGY

FIX 2

# Record five good calls.

**New hires listen before they ever pick up.**

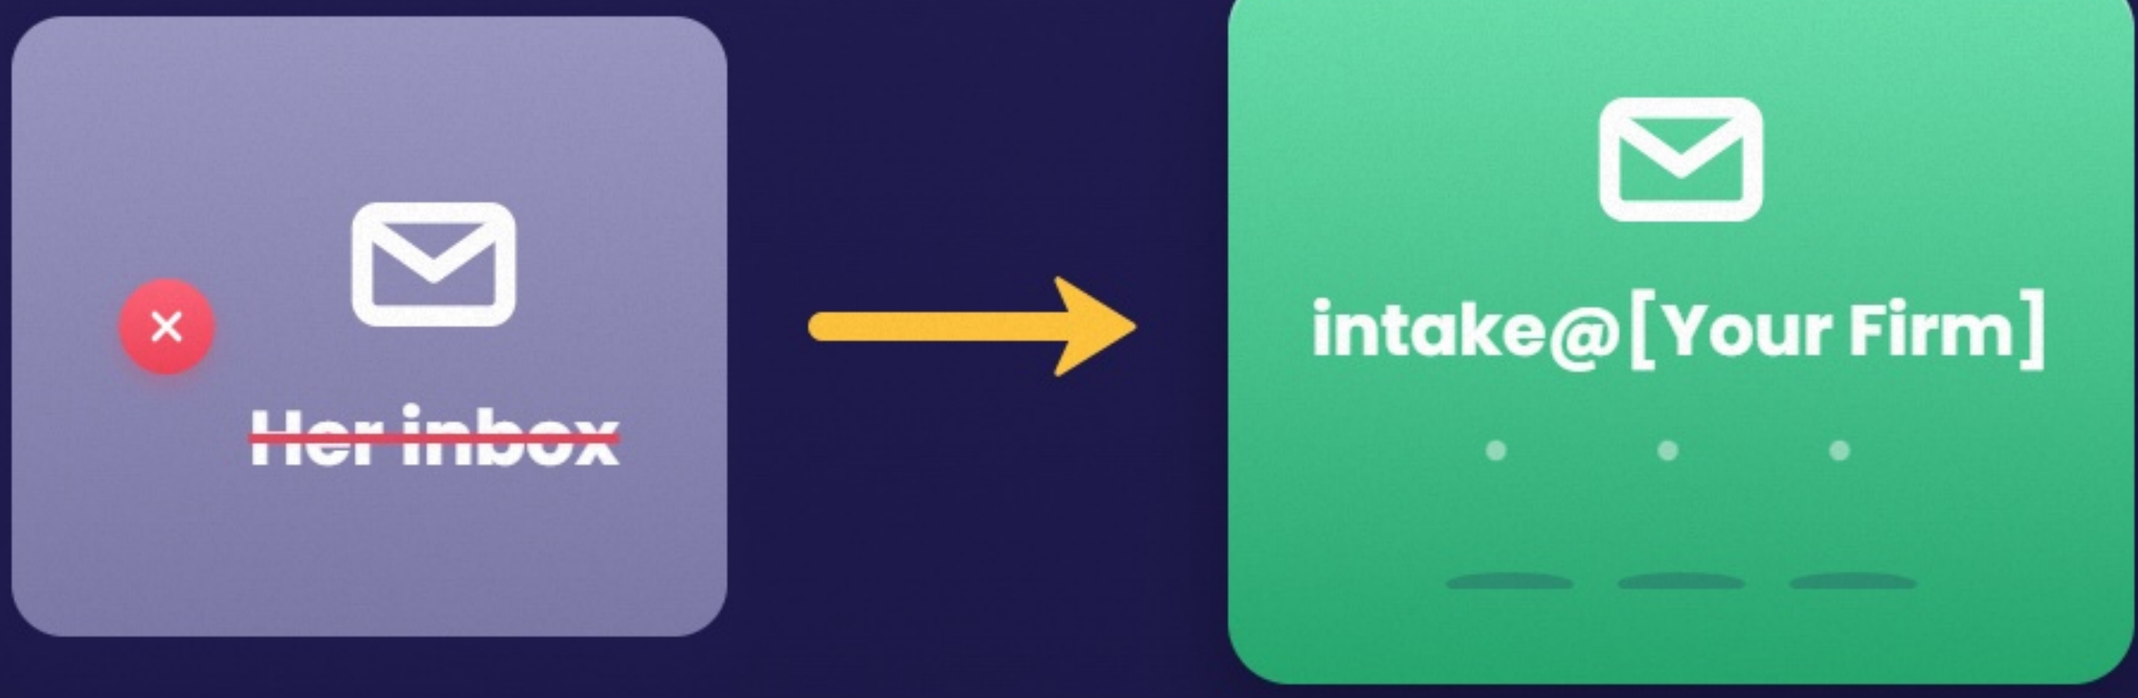

With permission, and following your state’s recording rules.

RUBIKS TECHNOLOGY

FIX 3

# A shared inbox, not a personal one.

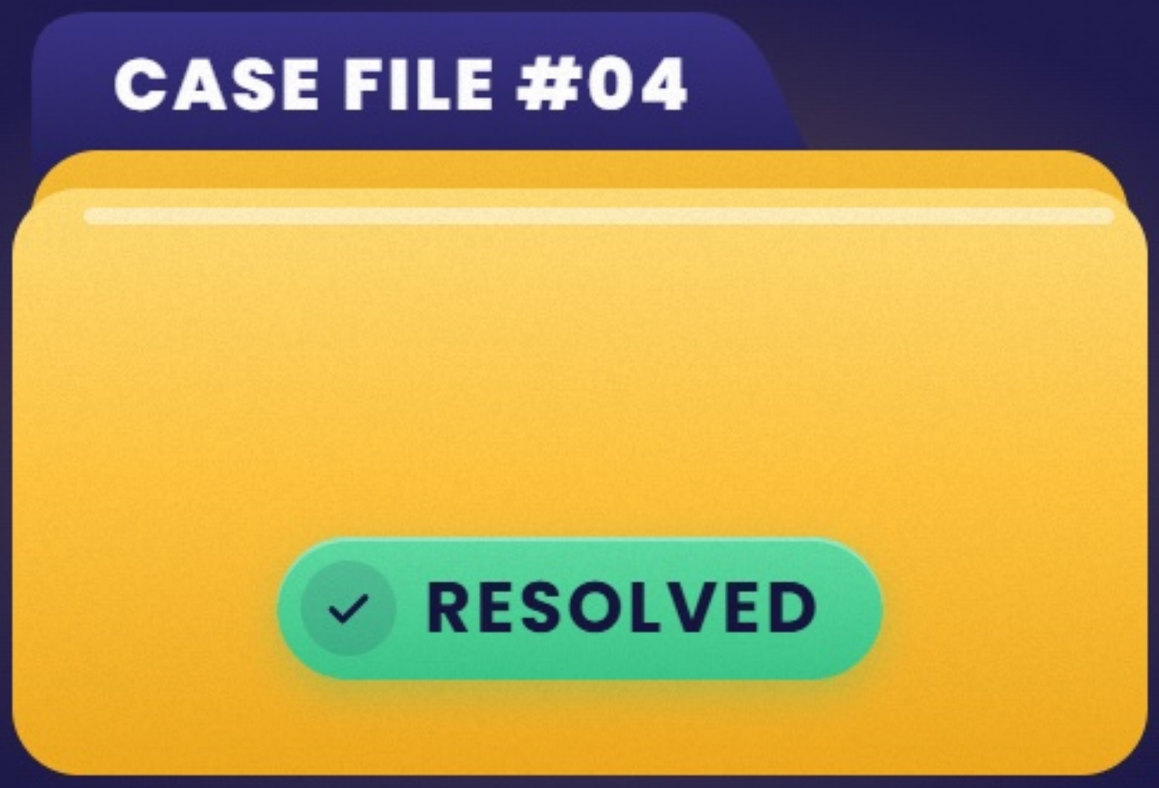

Leads outlive any one login

Leads, texts and voicemails land where the whole team can see them.

RUBIKS TECHNOLOGY

# Next hire ready in a week, not months.
