RUBIKS TECHNOLOGY

Your voicemail greeting is sending callers to the next firm.

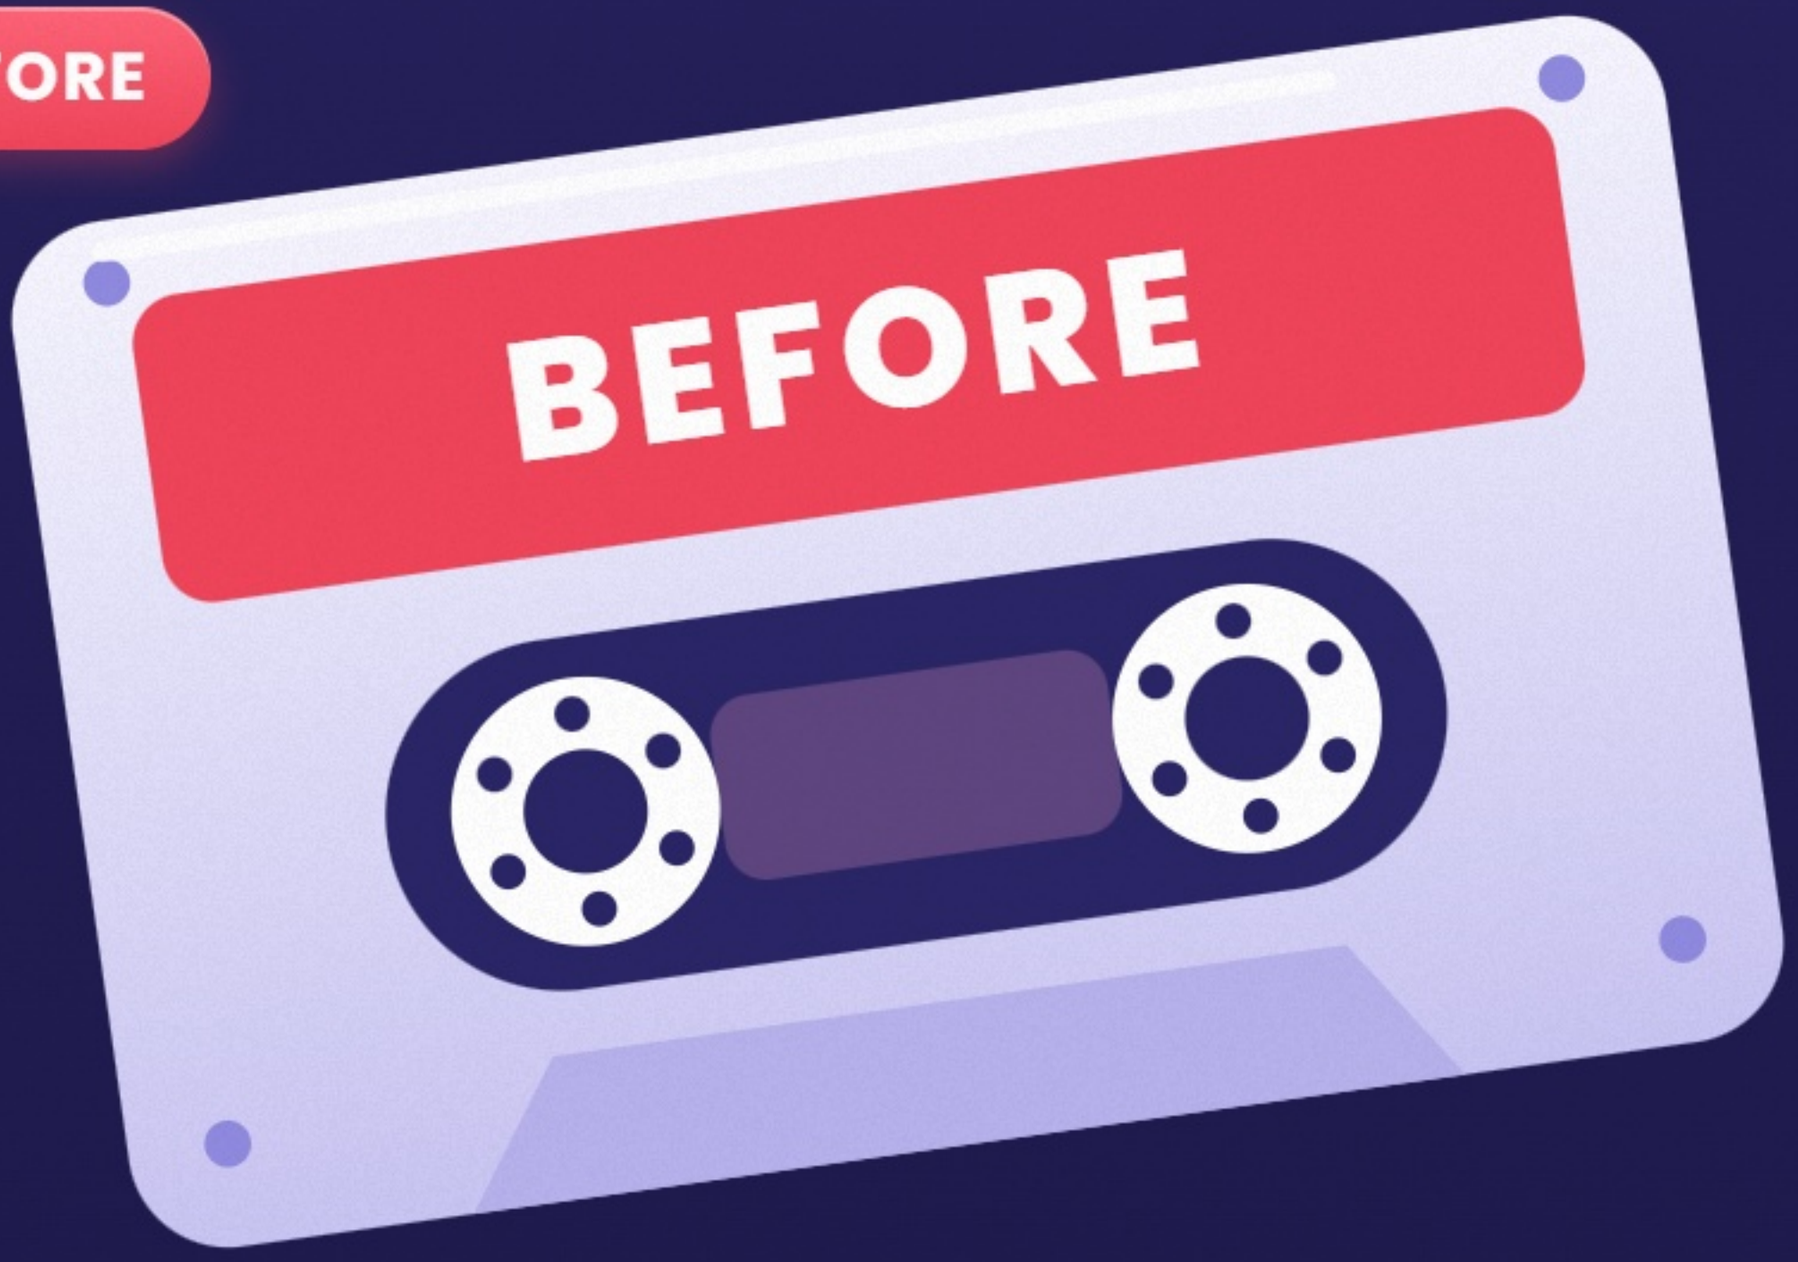

A 4-line fix you can record in two minutes.

→ Swipe →

RUBIKS
TECHNOLOGY

BEFORE

“You’ve reached the law office of [Your Firm]. Please leave a message.”

This is what most callers hear.

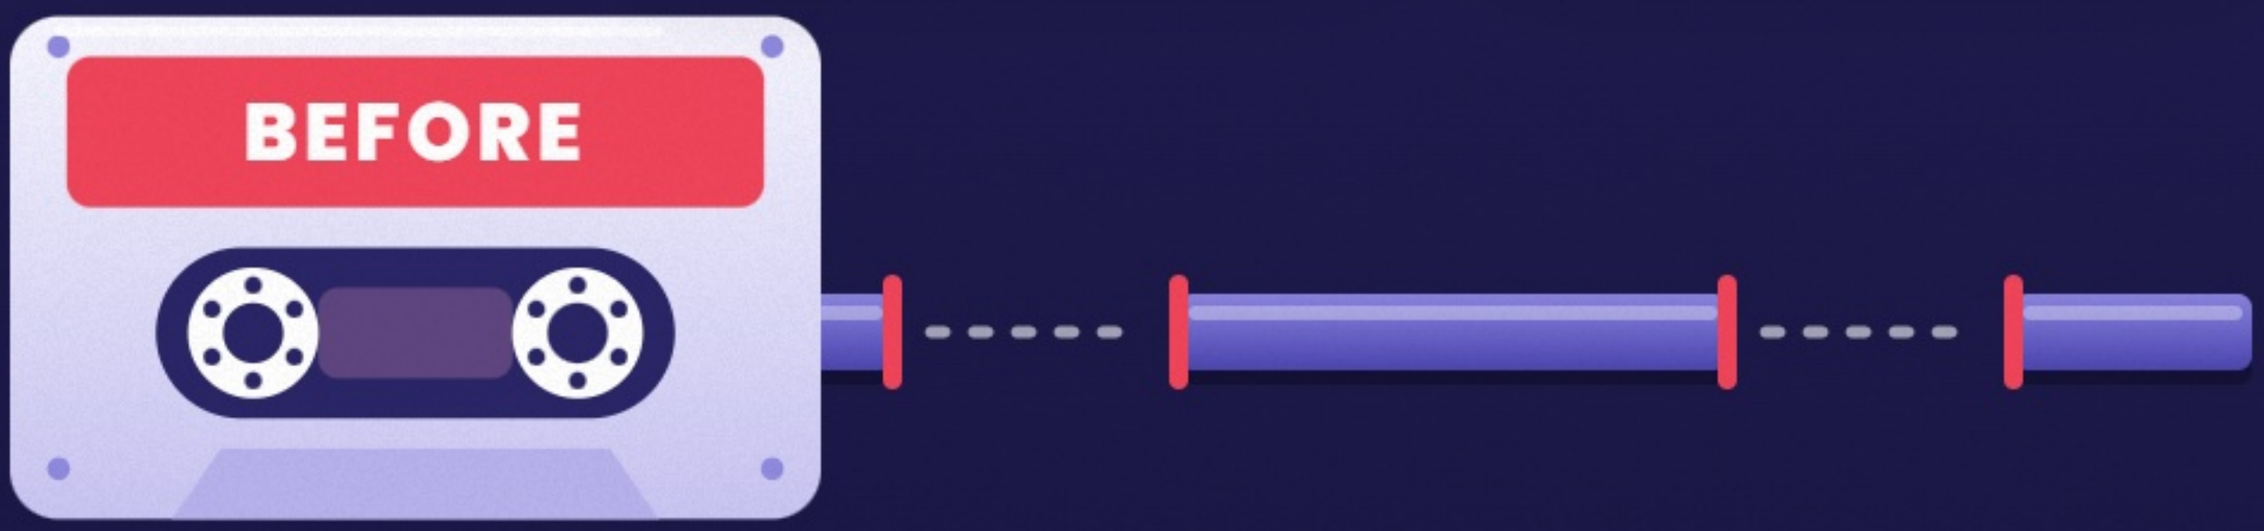

RUBIKS TECHNOLOGY

? WHAT'S MISSING

Two answers every caller is waiting for.

? When will I hear back?

? Is there another way to reach you?

No answer to either, so they hang up.

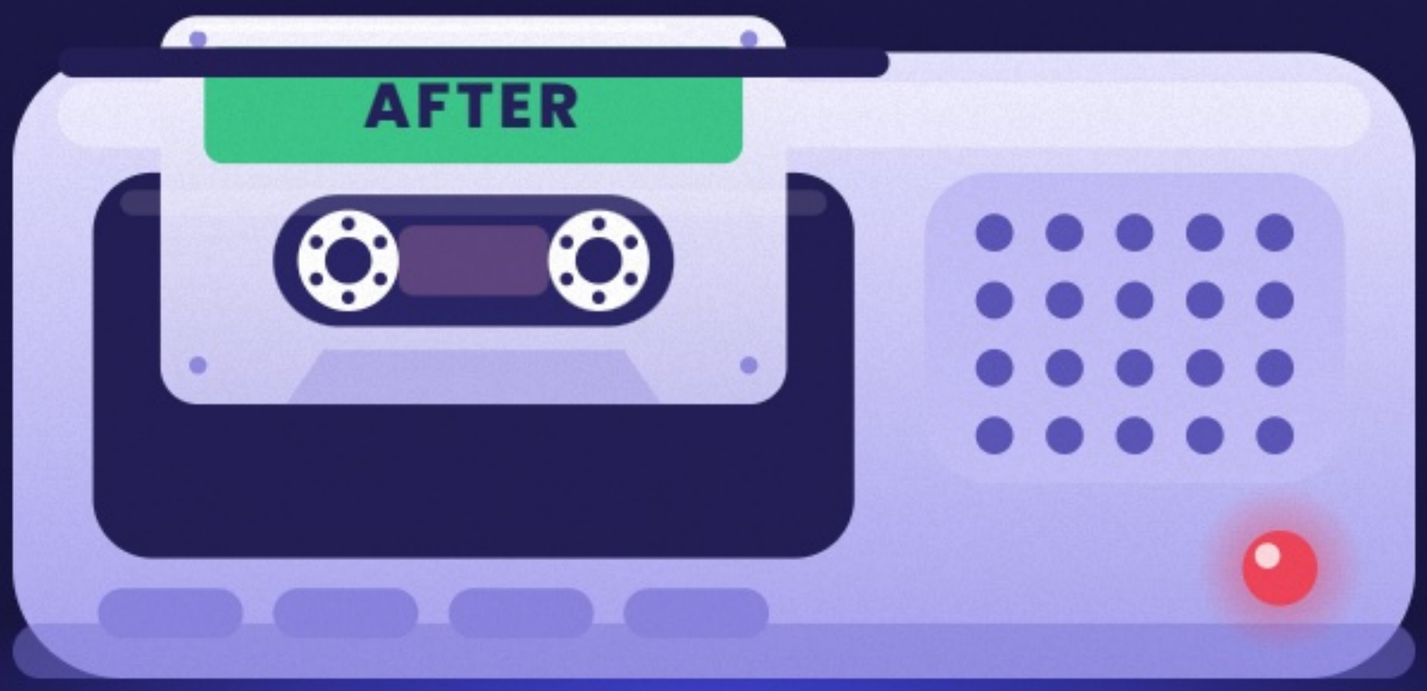

RUBIKS TECHNOLOGY

AFTER LINE 1

Say who you are and what you handle.

They know they called the right place.

“You’ve reached [Your Firm]. We help people with [practice area].”

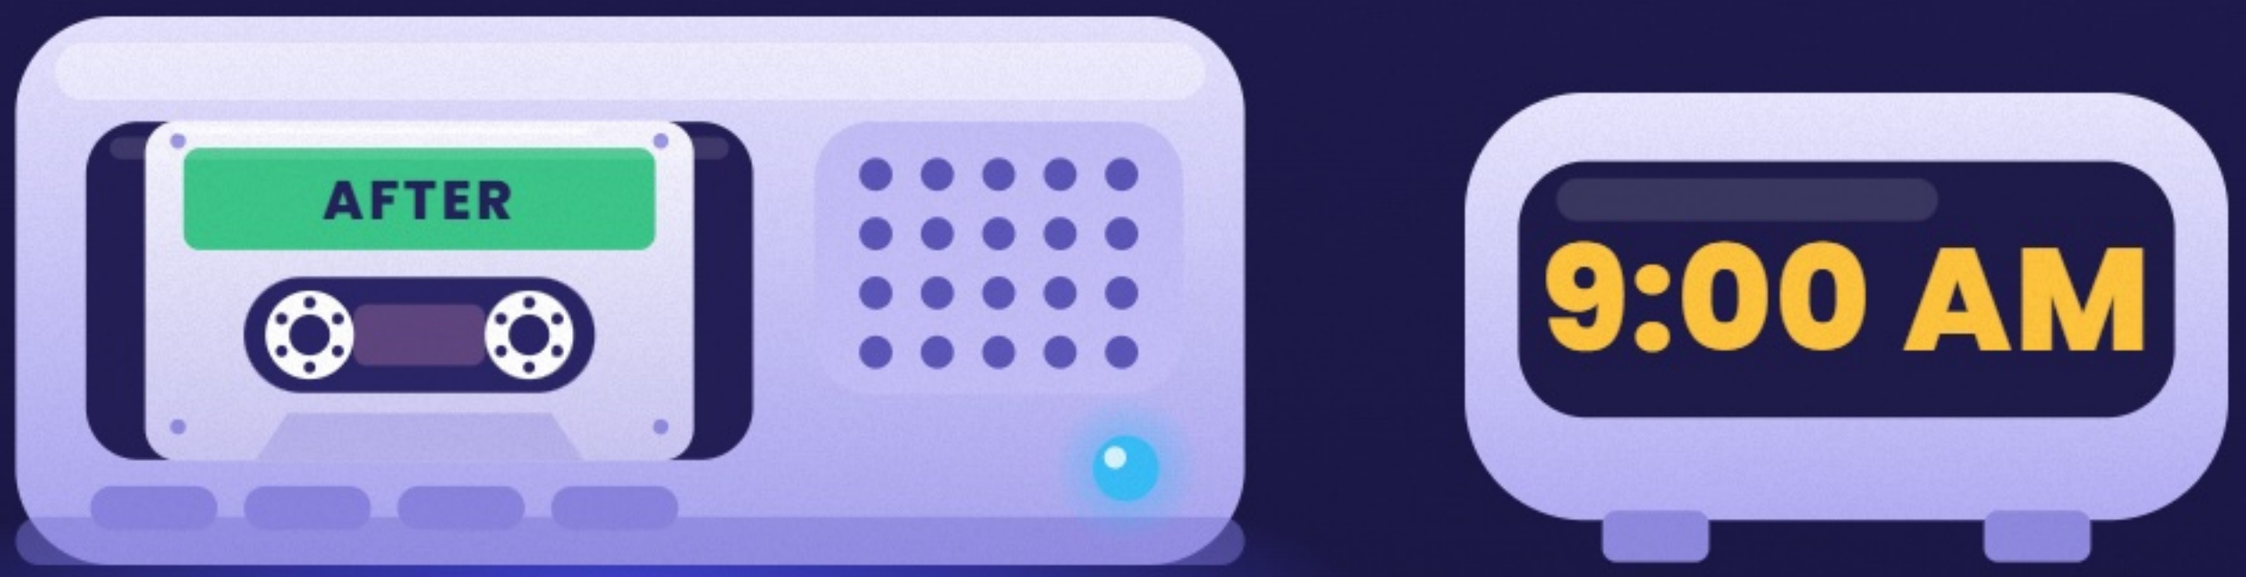

RUBIKS TECHNOLOGY

AFTER LINE 2

Say when they’ll hear back.

A real time beats ‘as soon as possible.’

“We return every call by 9 AM the next business day.”

RUBIKS
TECHNOLOGY

AFTER LINE 3

Give them a faster way.

Many people would rather text than leave a message.

“Or text this number now and we’ll reply sooner.”

RUBIKS TECHNOLOGY

THE FULL GREETING

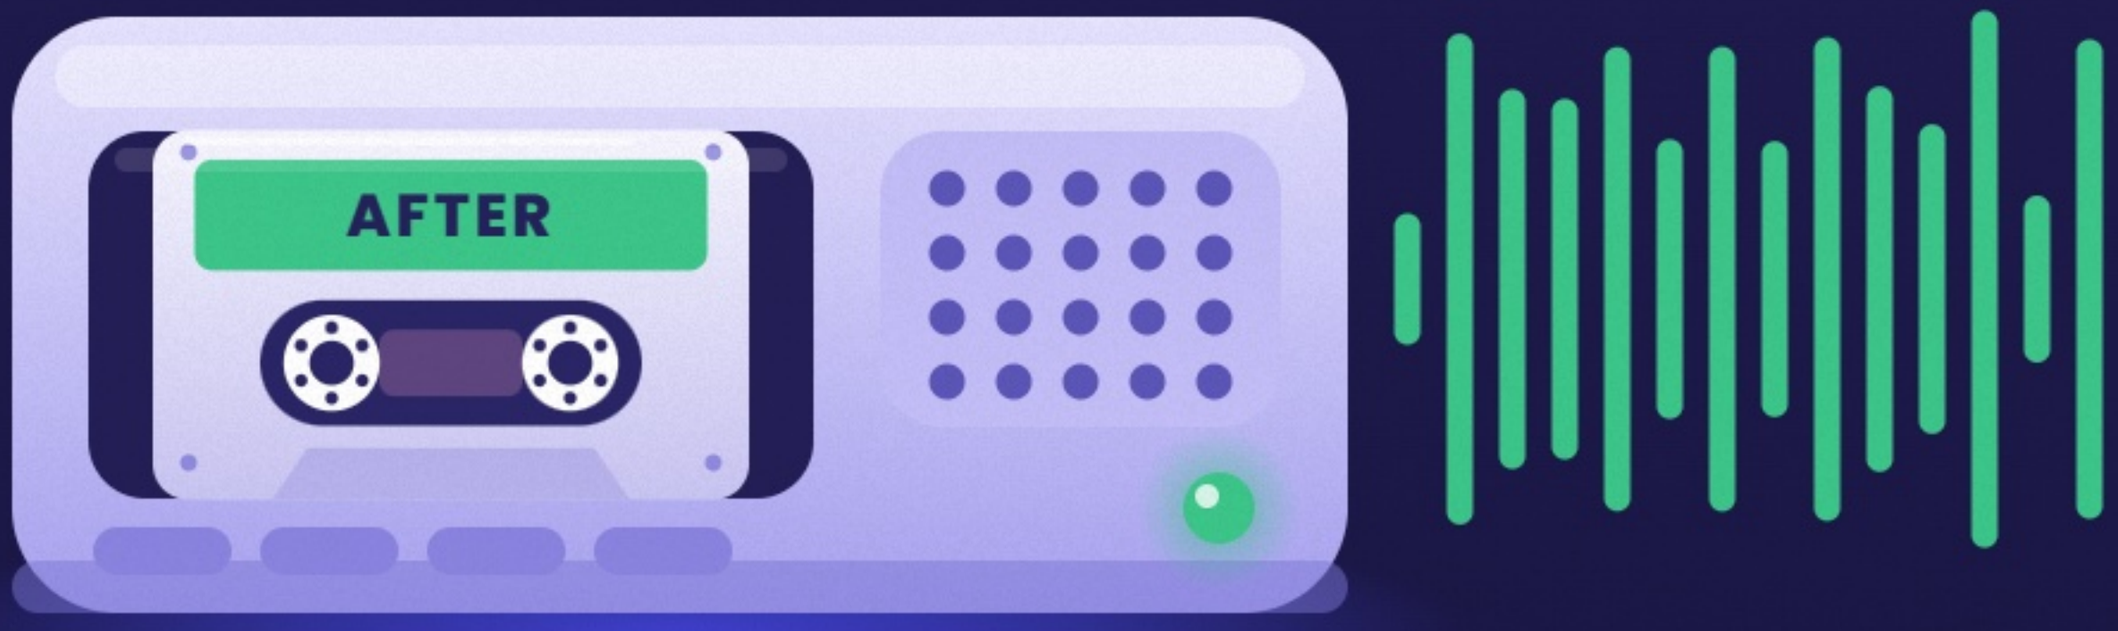

Record this today.

1. “You’ve reached [Your Firm]. We help people with [practice area].”
2. “We return every call by 9 AM the next business day.”
3. “Or text this number now and we’ll reply sooner.”
4. “Please leave your name, your number and what happened.”

Save this slide.
