RUBIKS TECHNOLOGY

CASE FILE #01

⚠ Example scenario

40 consultations booked. 9 people never showed.

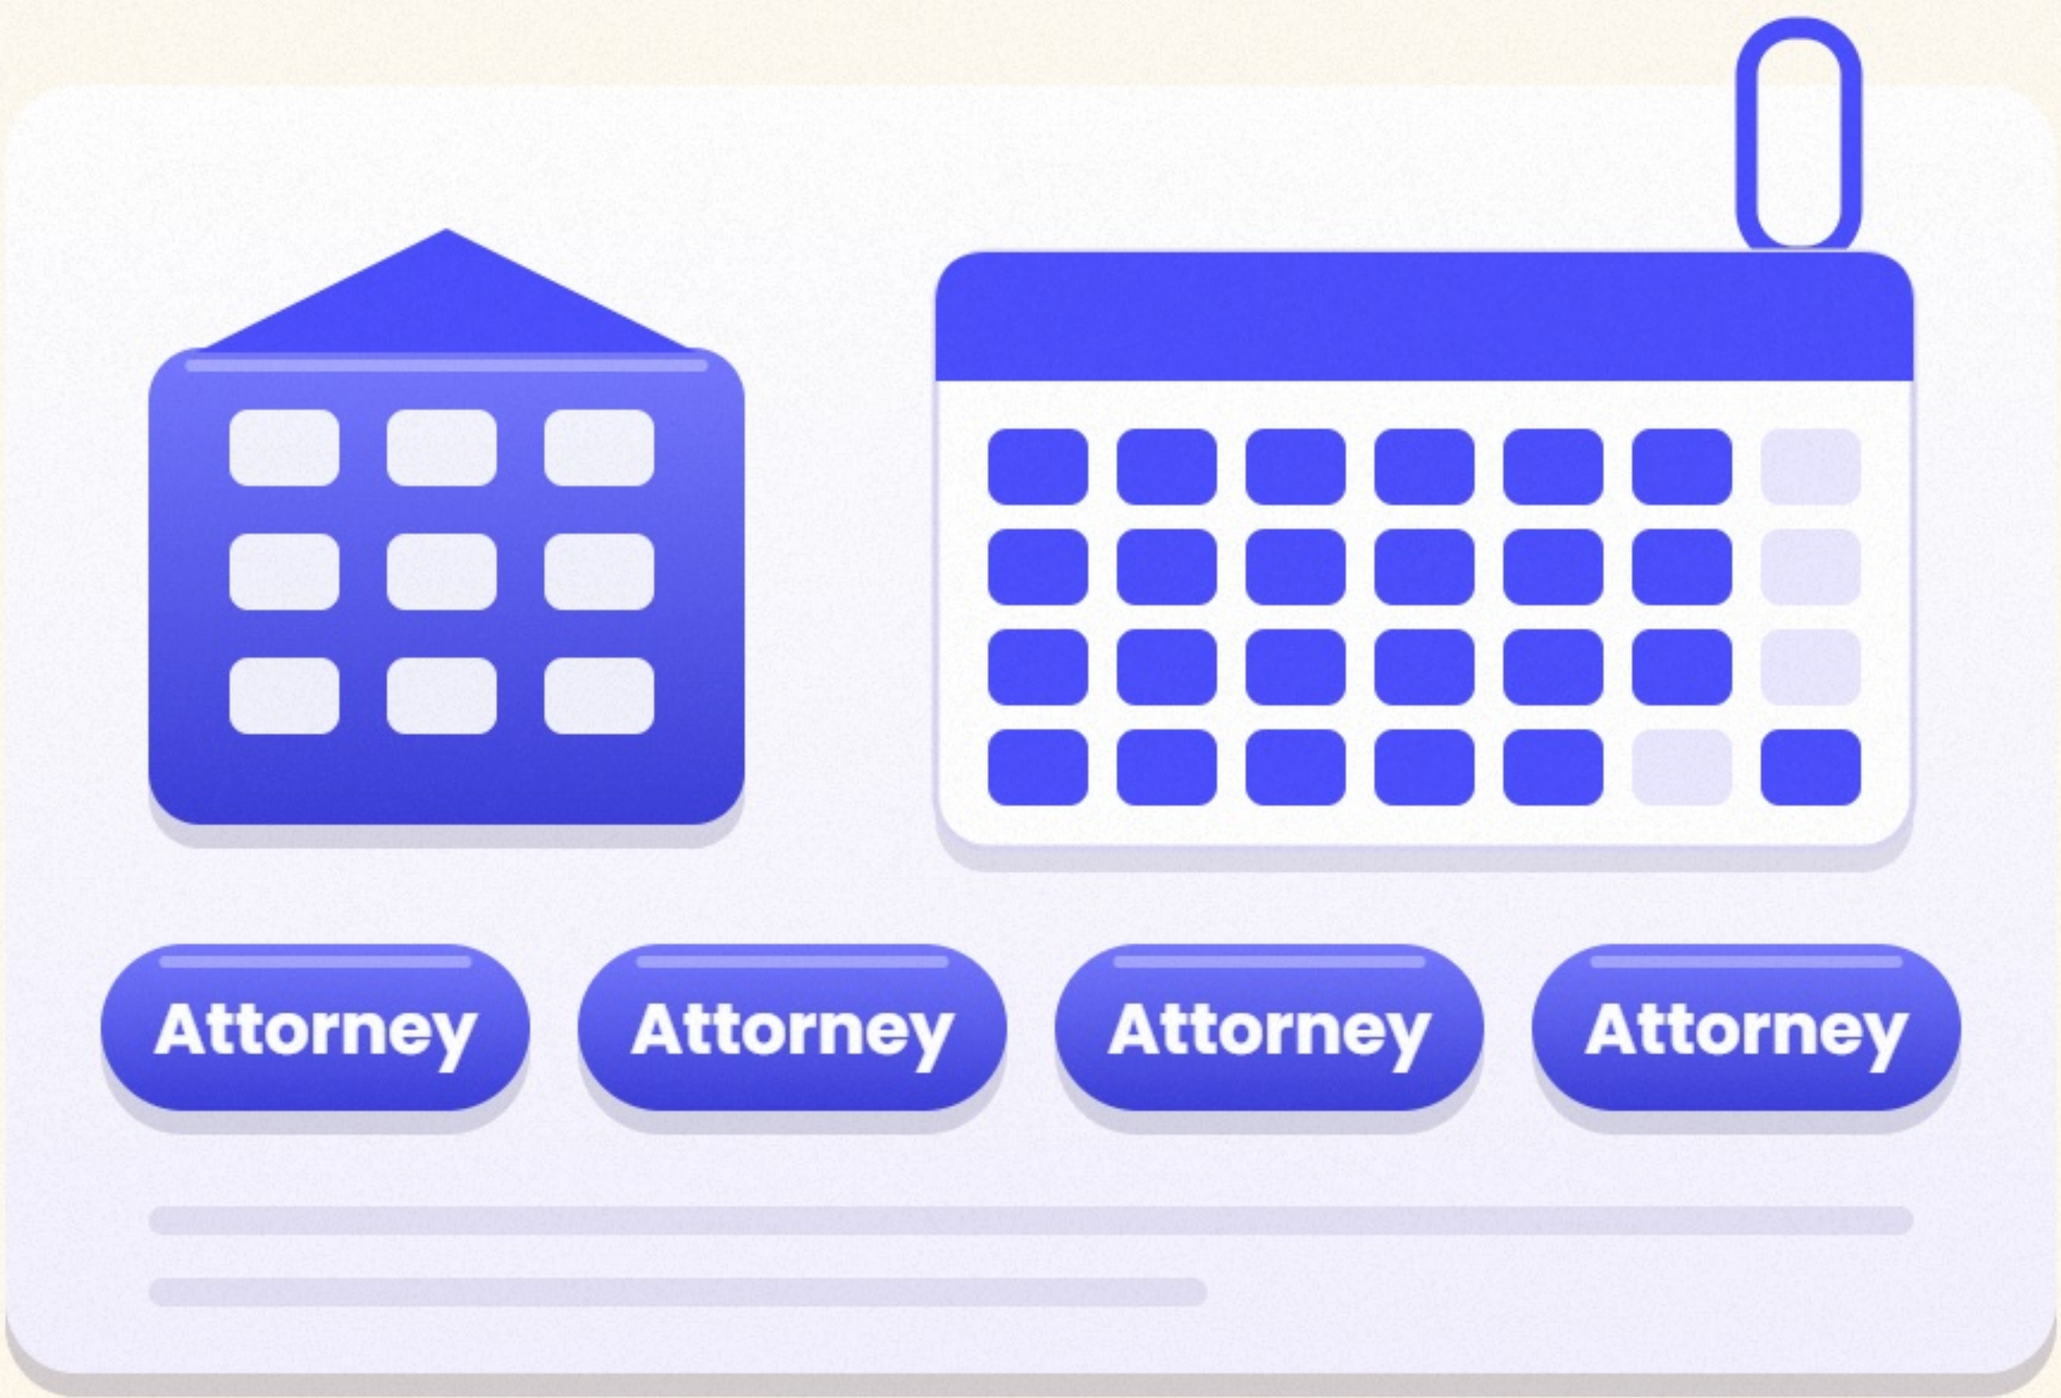

Here’s what happened, and three fixes.

RUBIKS TECHNOLOGY

THE FIRM

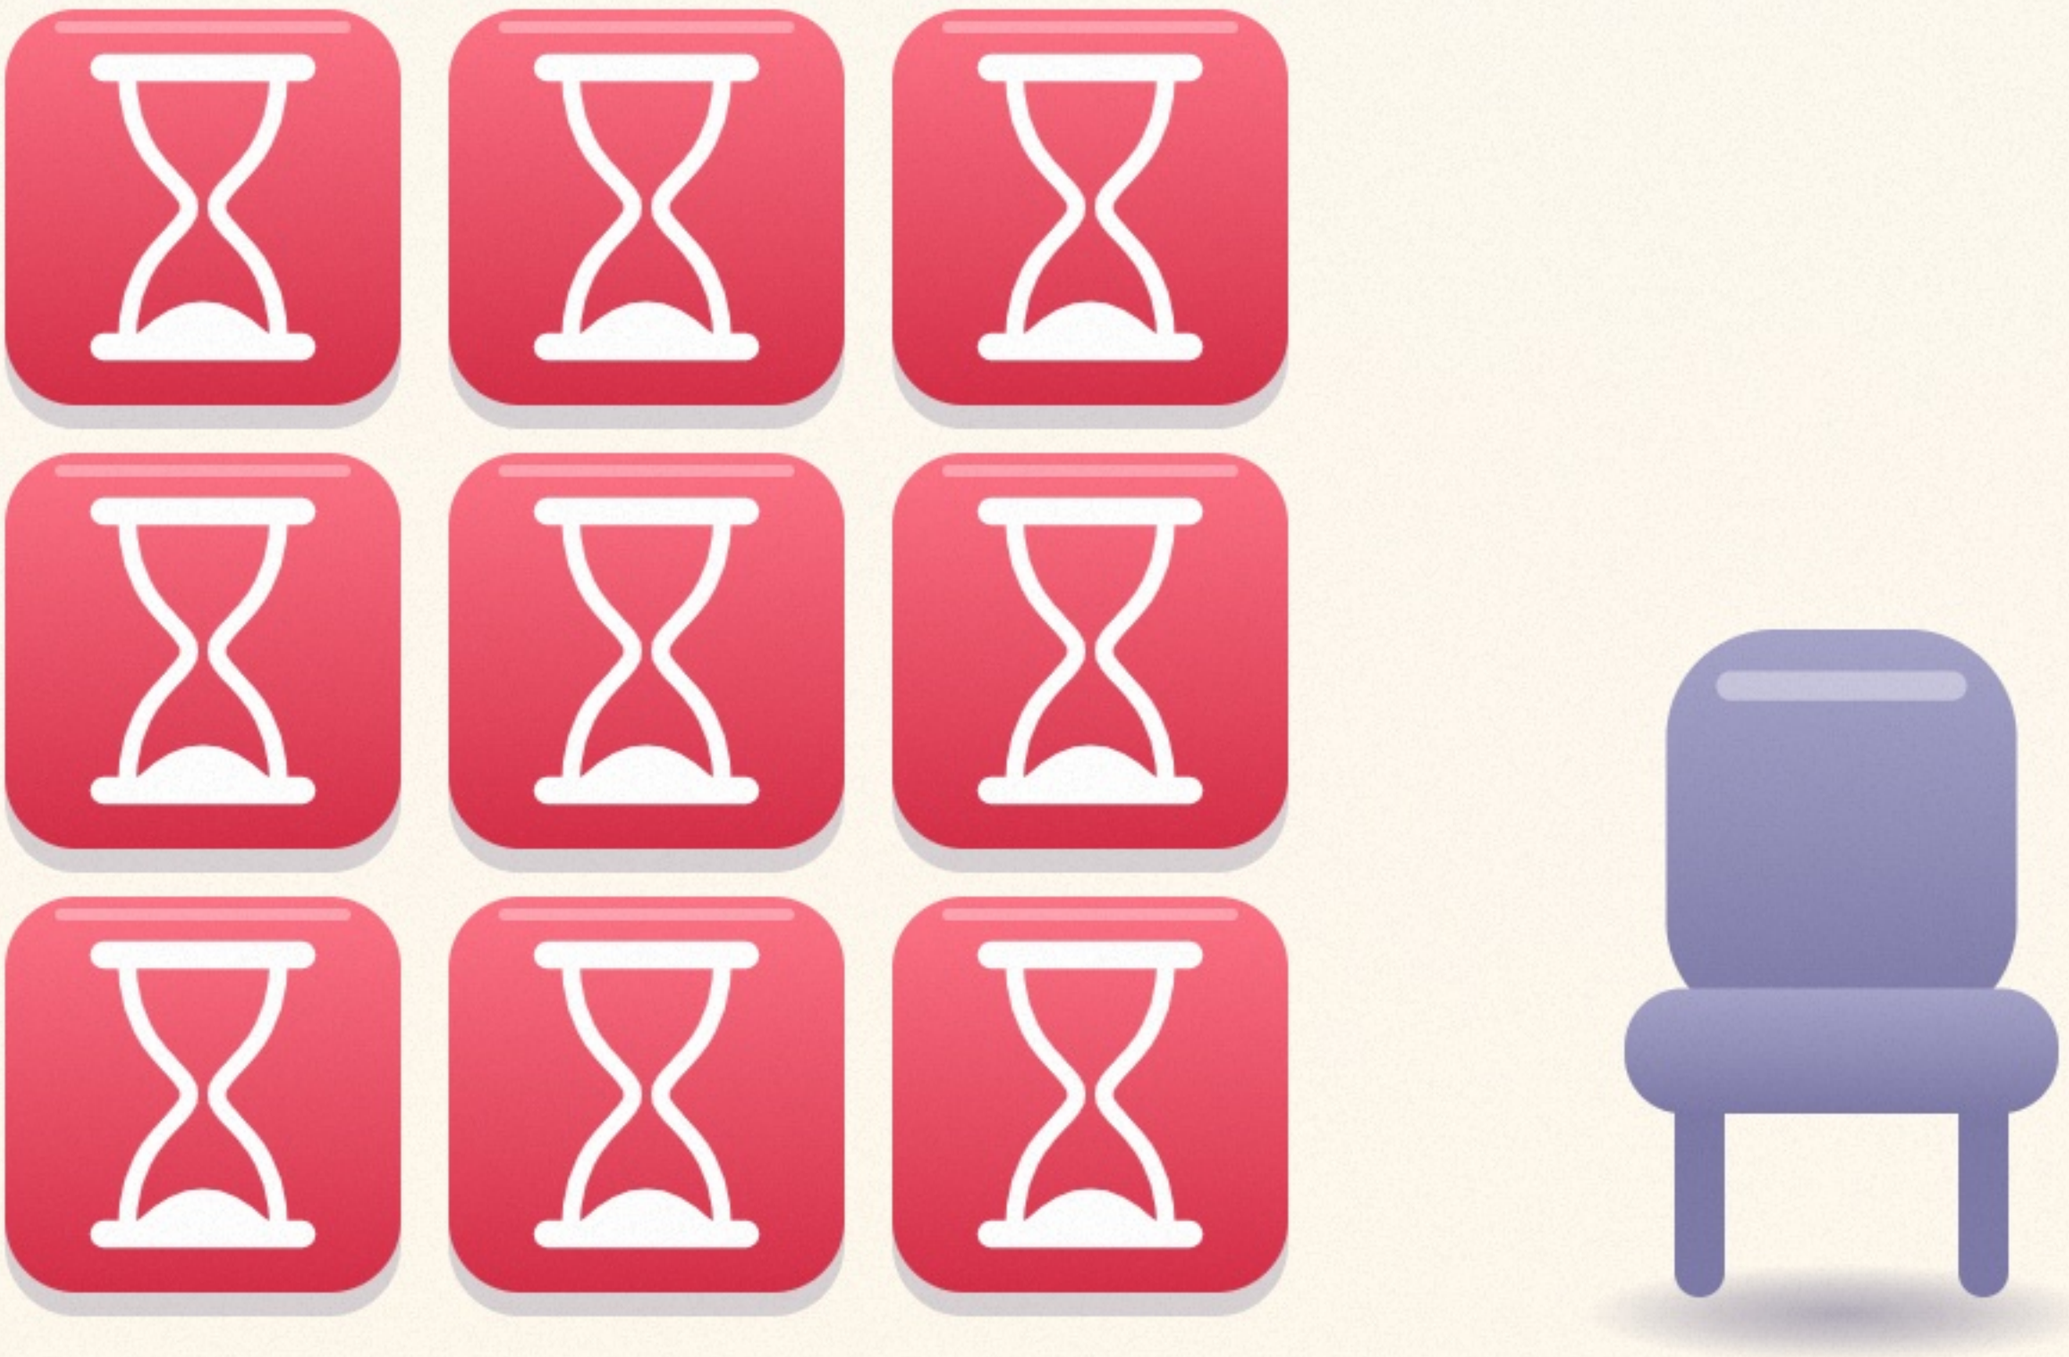

Four lawyers. Family law. A full calendar.

On paper, last month looked busy.

THE COST

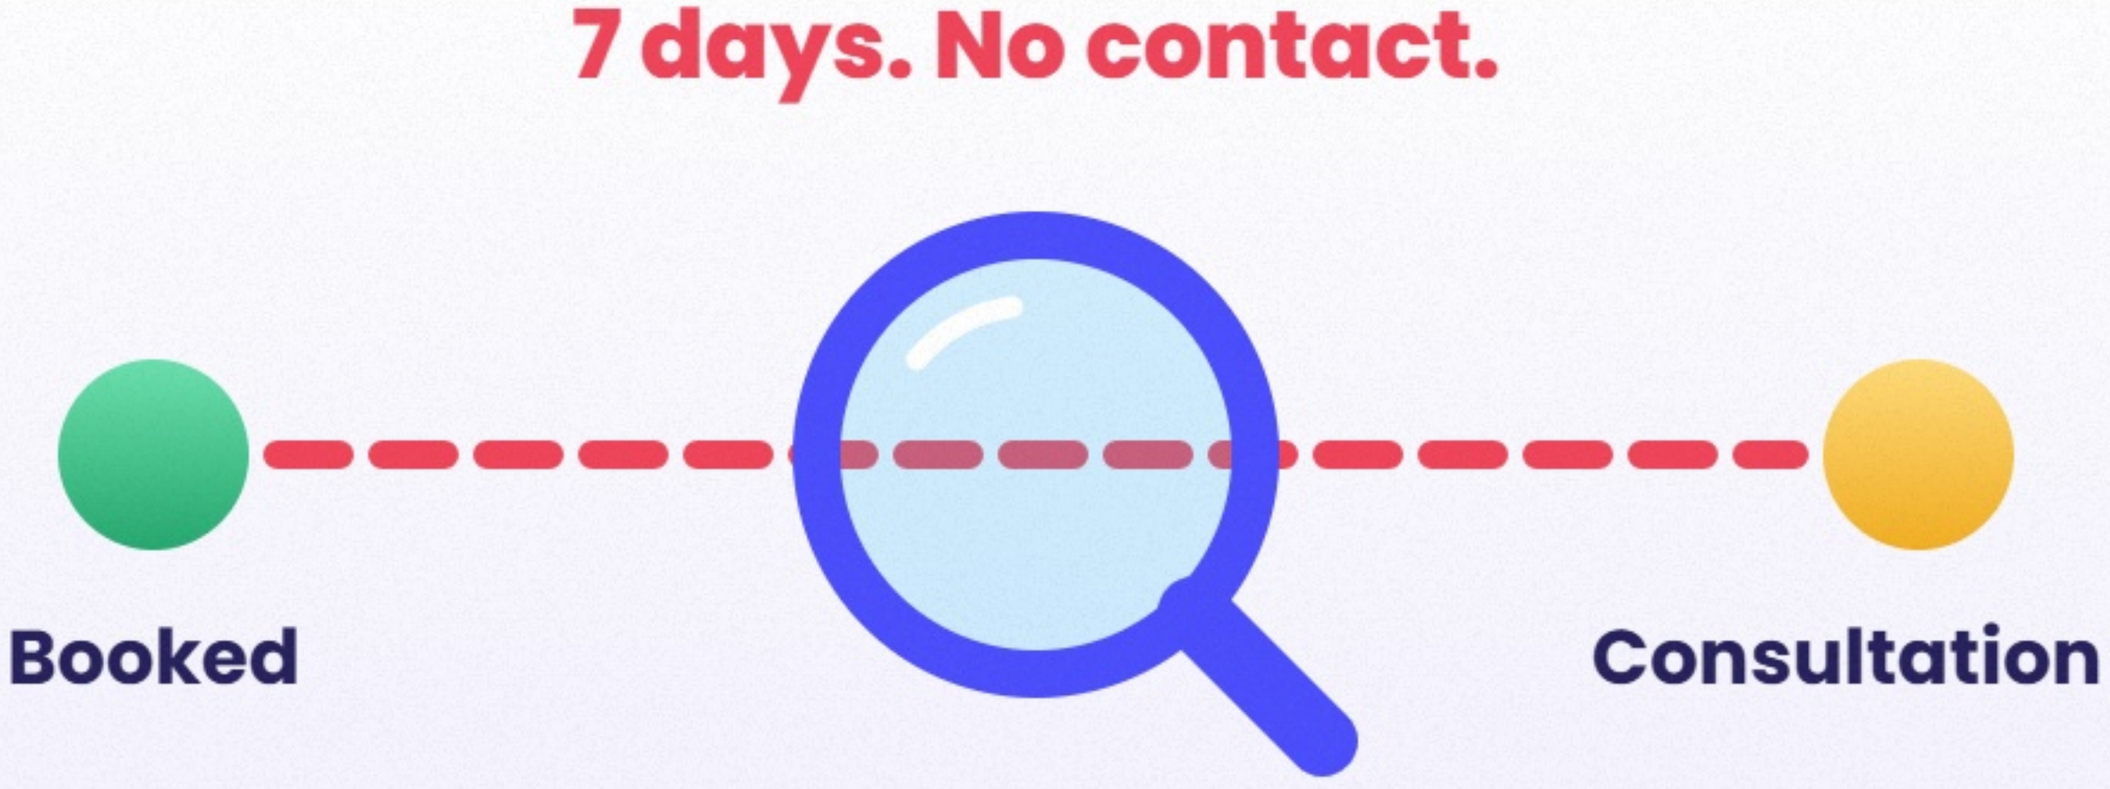

Nine empty hours a month.

Each one is an hour an attorney can’t get back.

WHAT WE'D LOOK AT

Not the clients. The gap.

People booked, waited a week, heard nothing, and lost their nerve.

RUBIKS TECHNOLOGY

FIX 1

Confirm by text within 5 minutes of booking.

You’re booked for Thursday at 10:00 AM. Reply C to confirm.

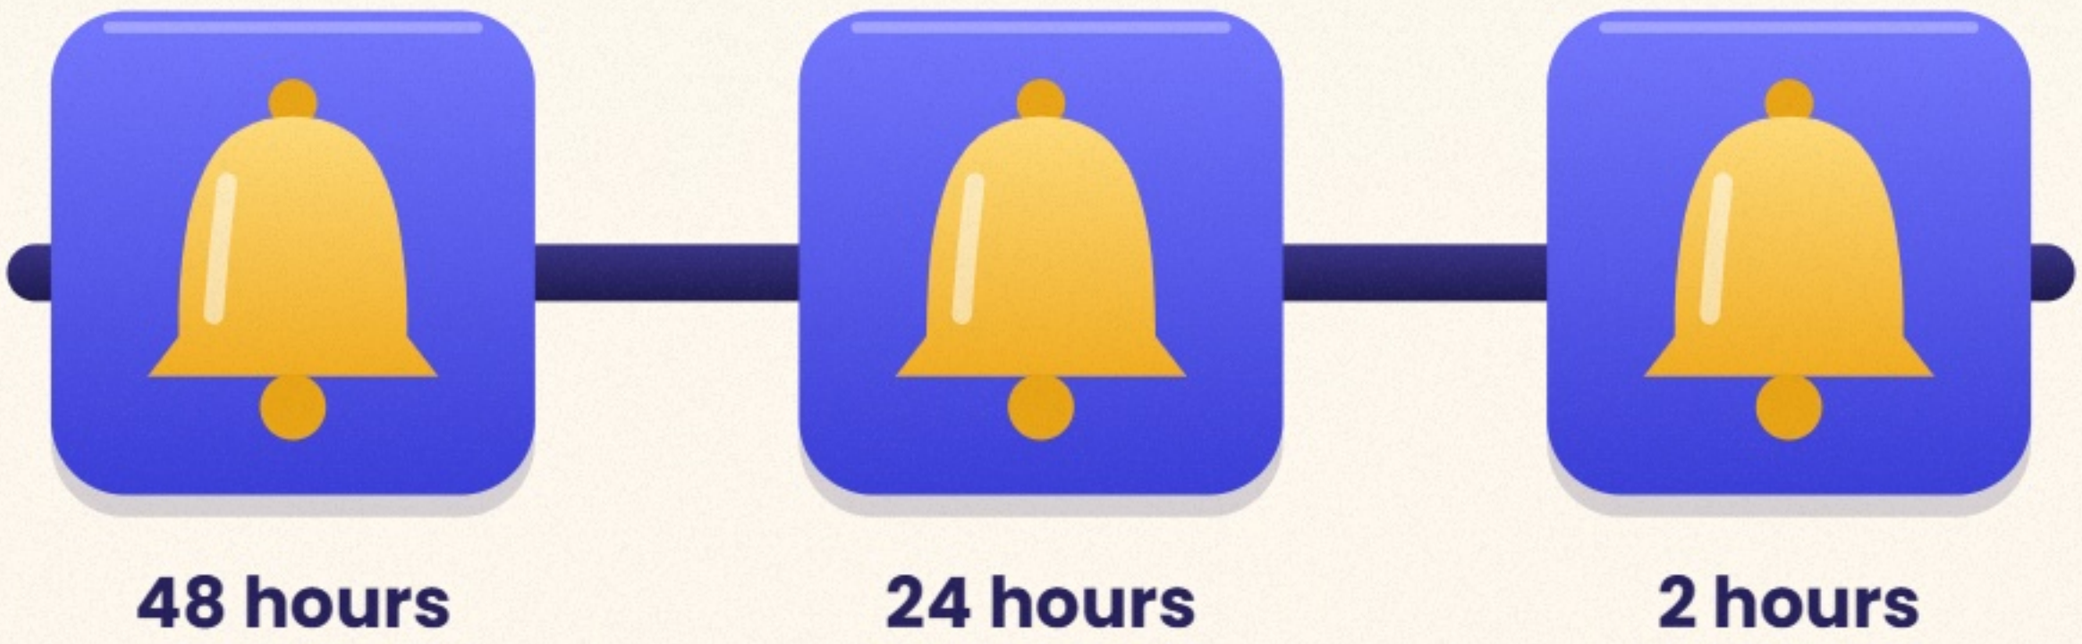

Confirmed

They know it’s real, and so do you.

FIX 2

Remind them three times. Always with a way to reschedule.

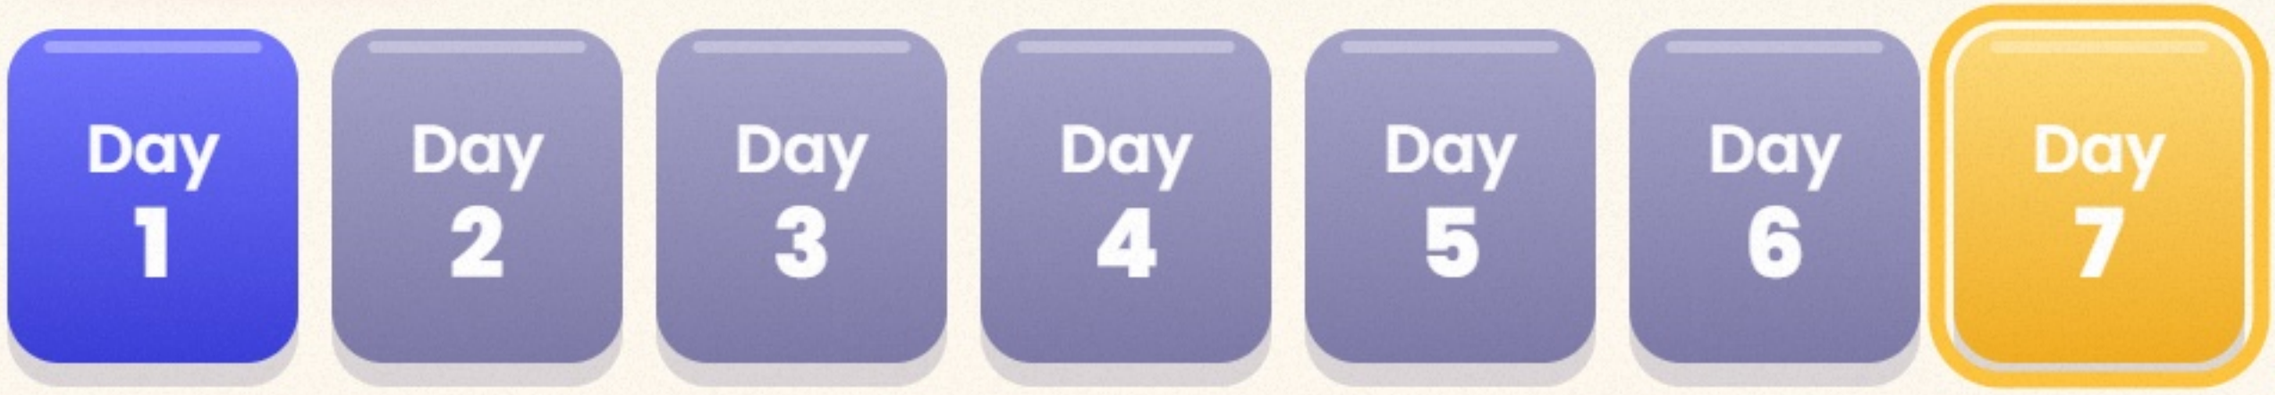

Need a new time? Tap to reschedule.

A busy day becomes a new time, not an empty chair.

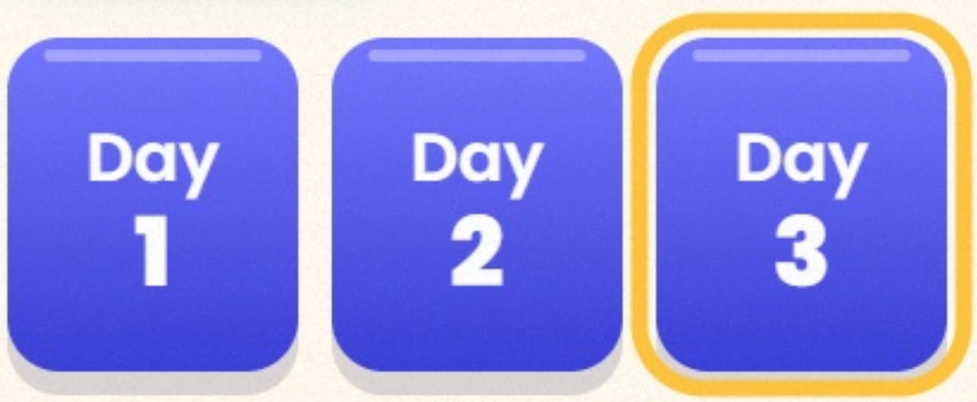

FIX 3

Get the wait under 3 days.

Before

After

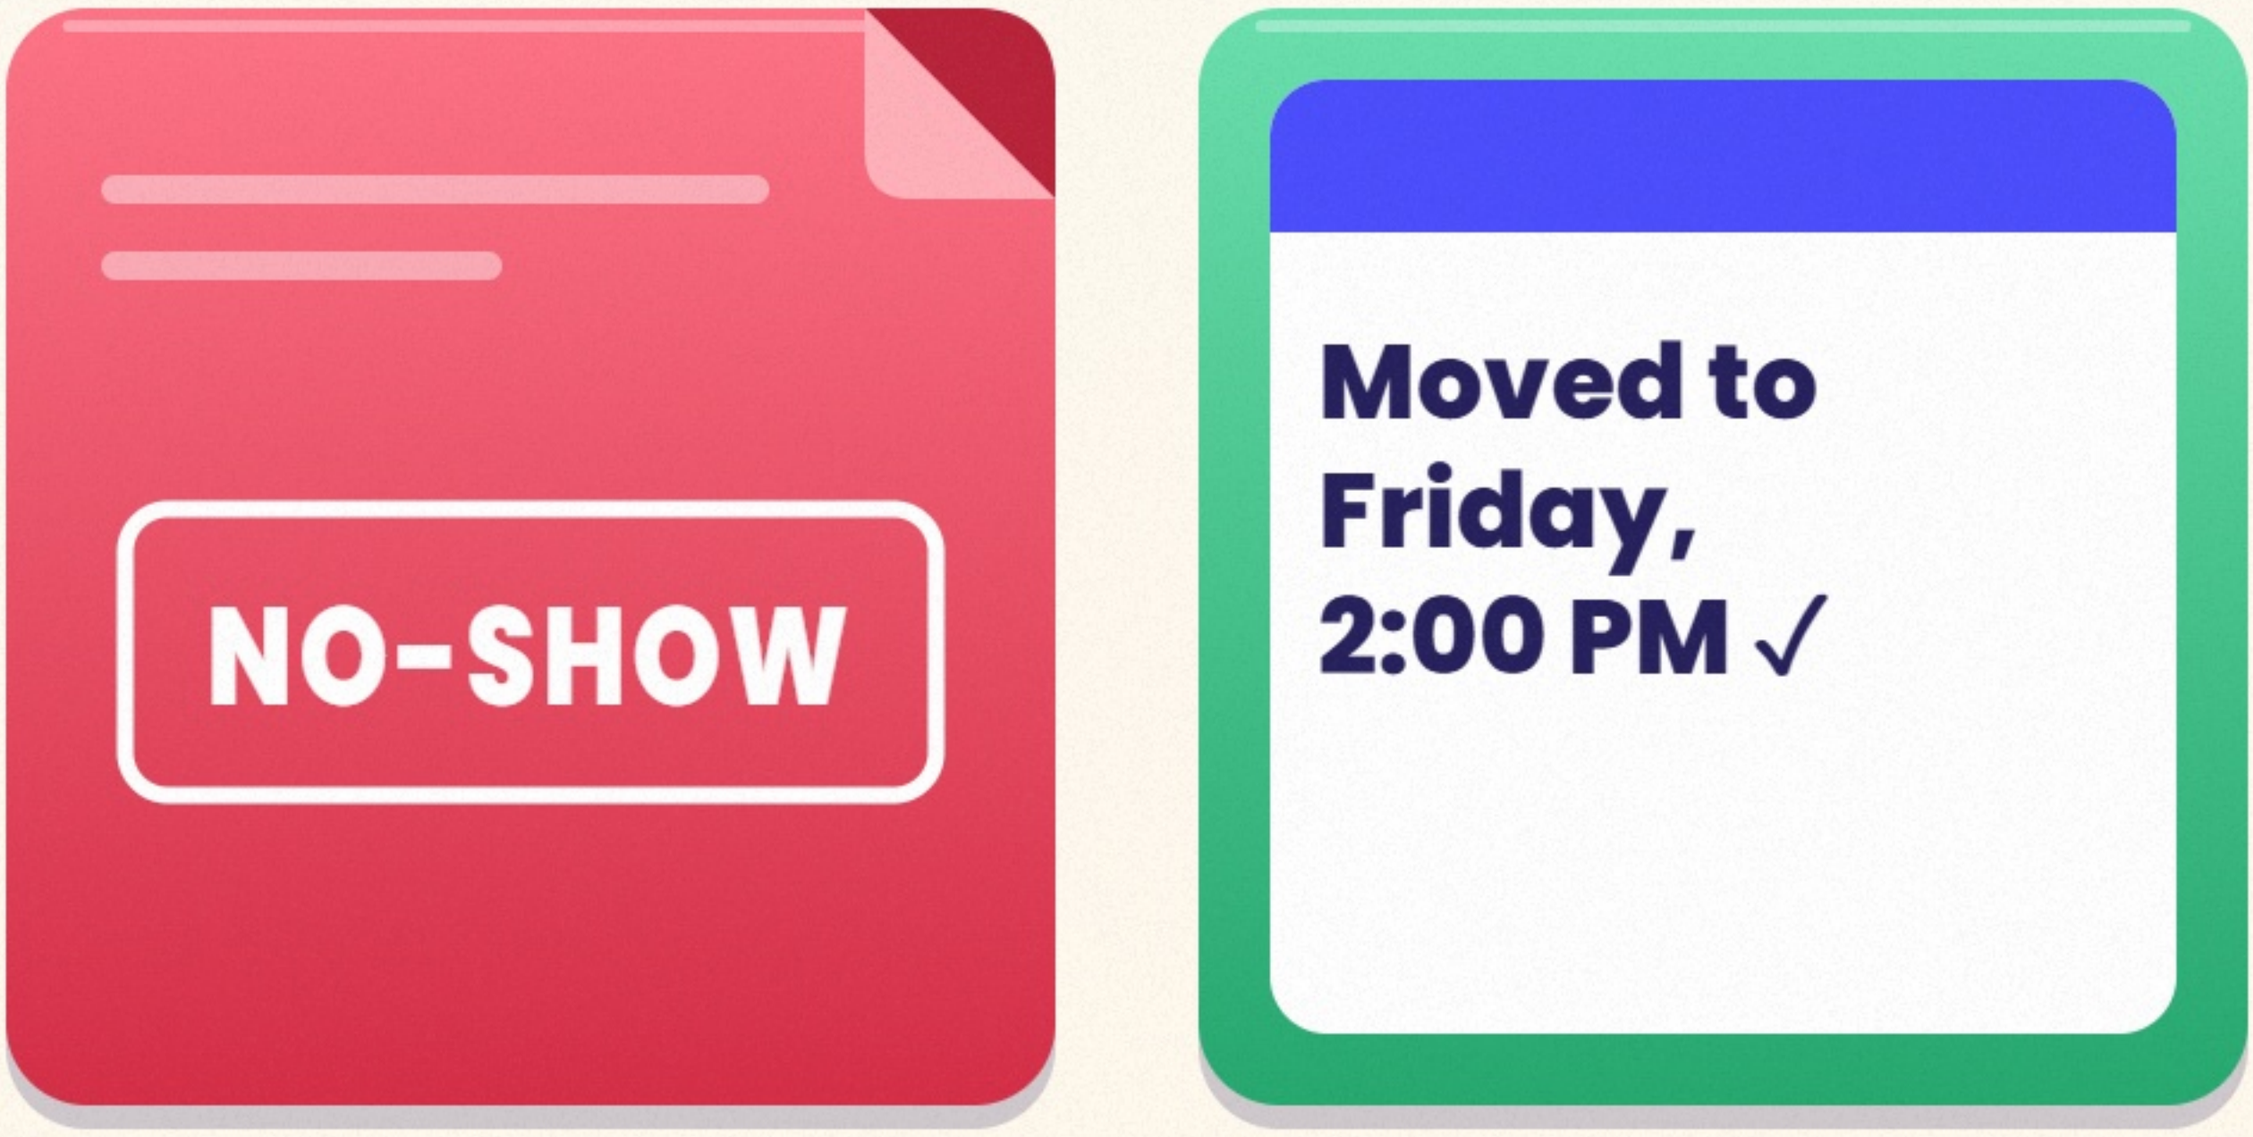

The longer the wait, the more people talk themselves out of it.

RUBIKS
TECHNOLOGY

WHY IT WORKS

A reschedule beats a no-show every time.

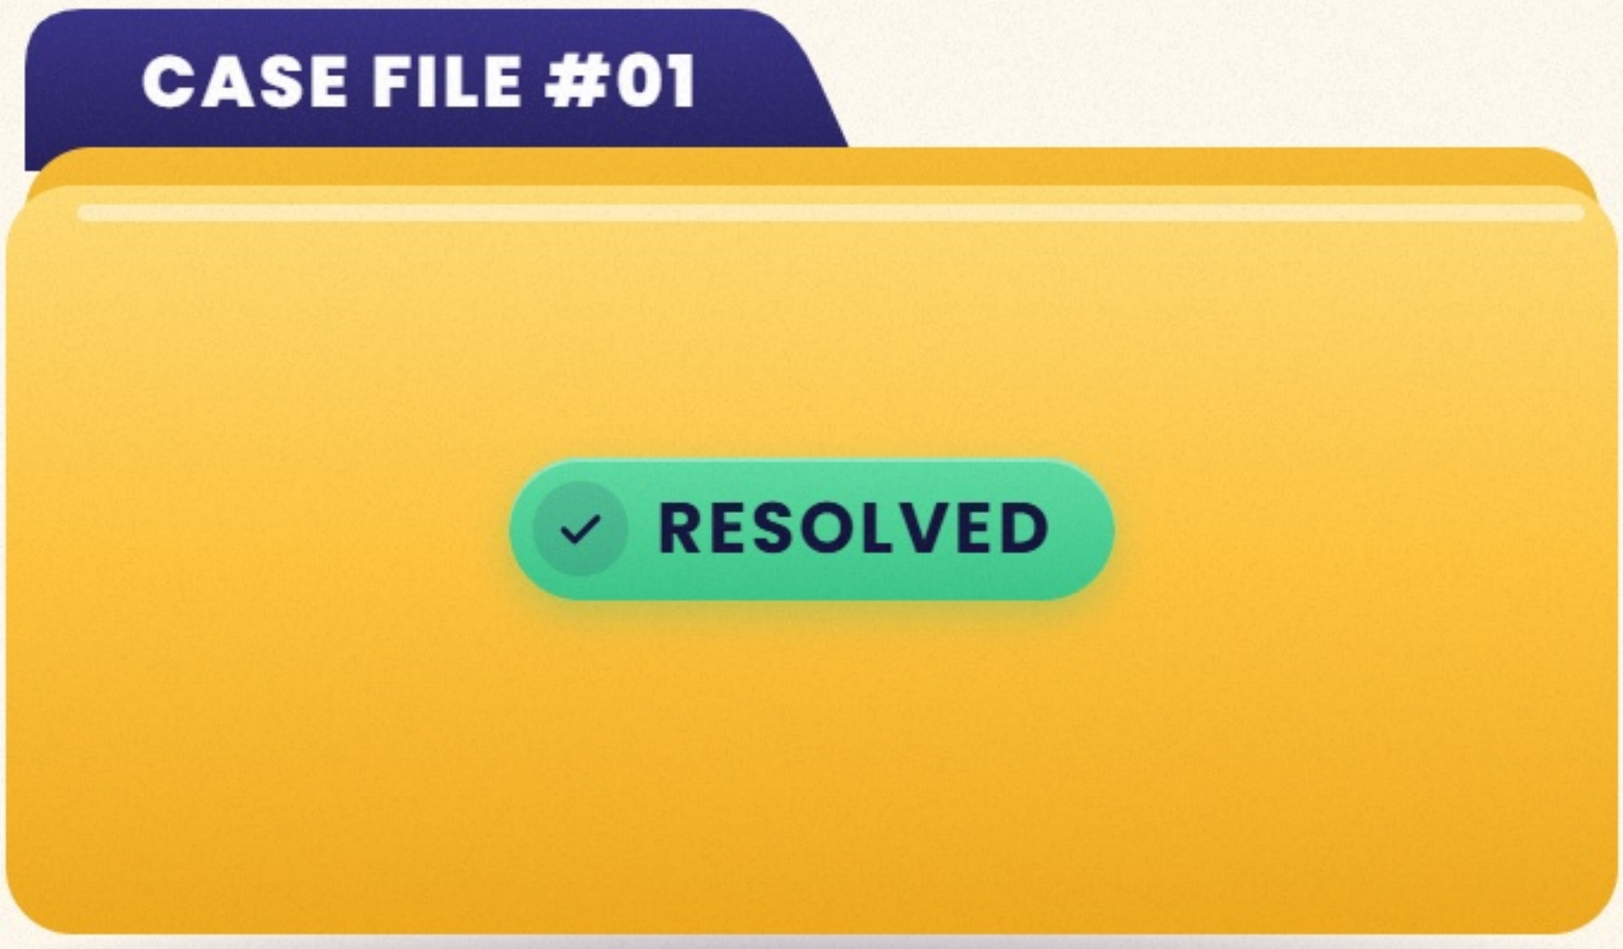

You keep the client. You just move the hour.
