RUBIKS TECHNOLOGY

# How to answer a 1-star review safely.

## Without breaking client confidentiality.

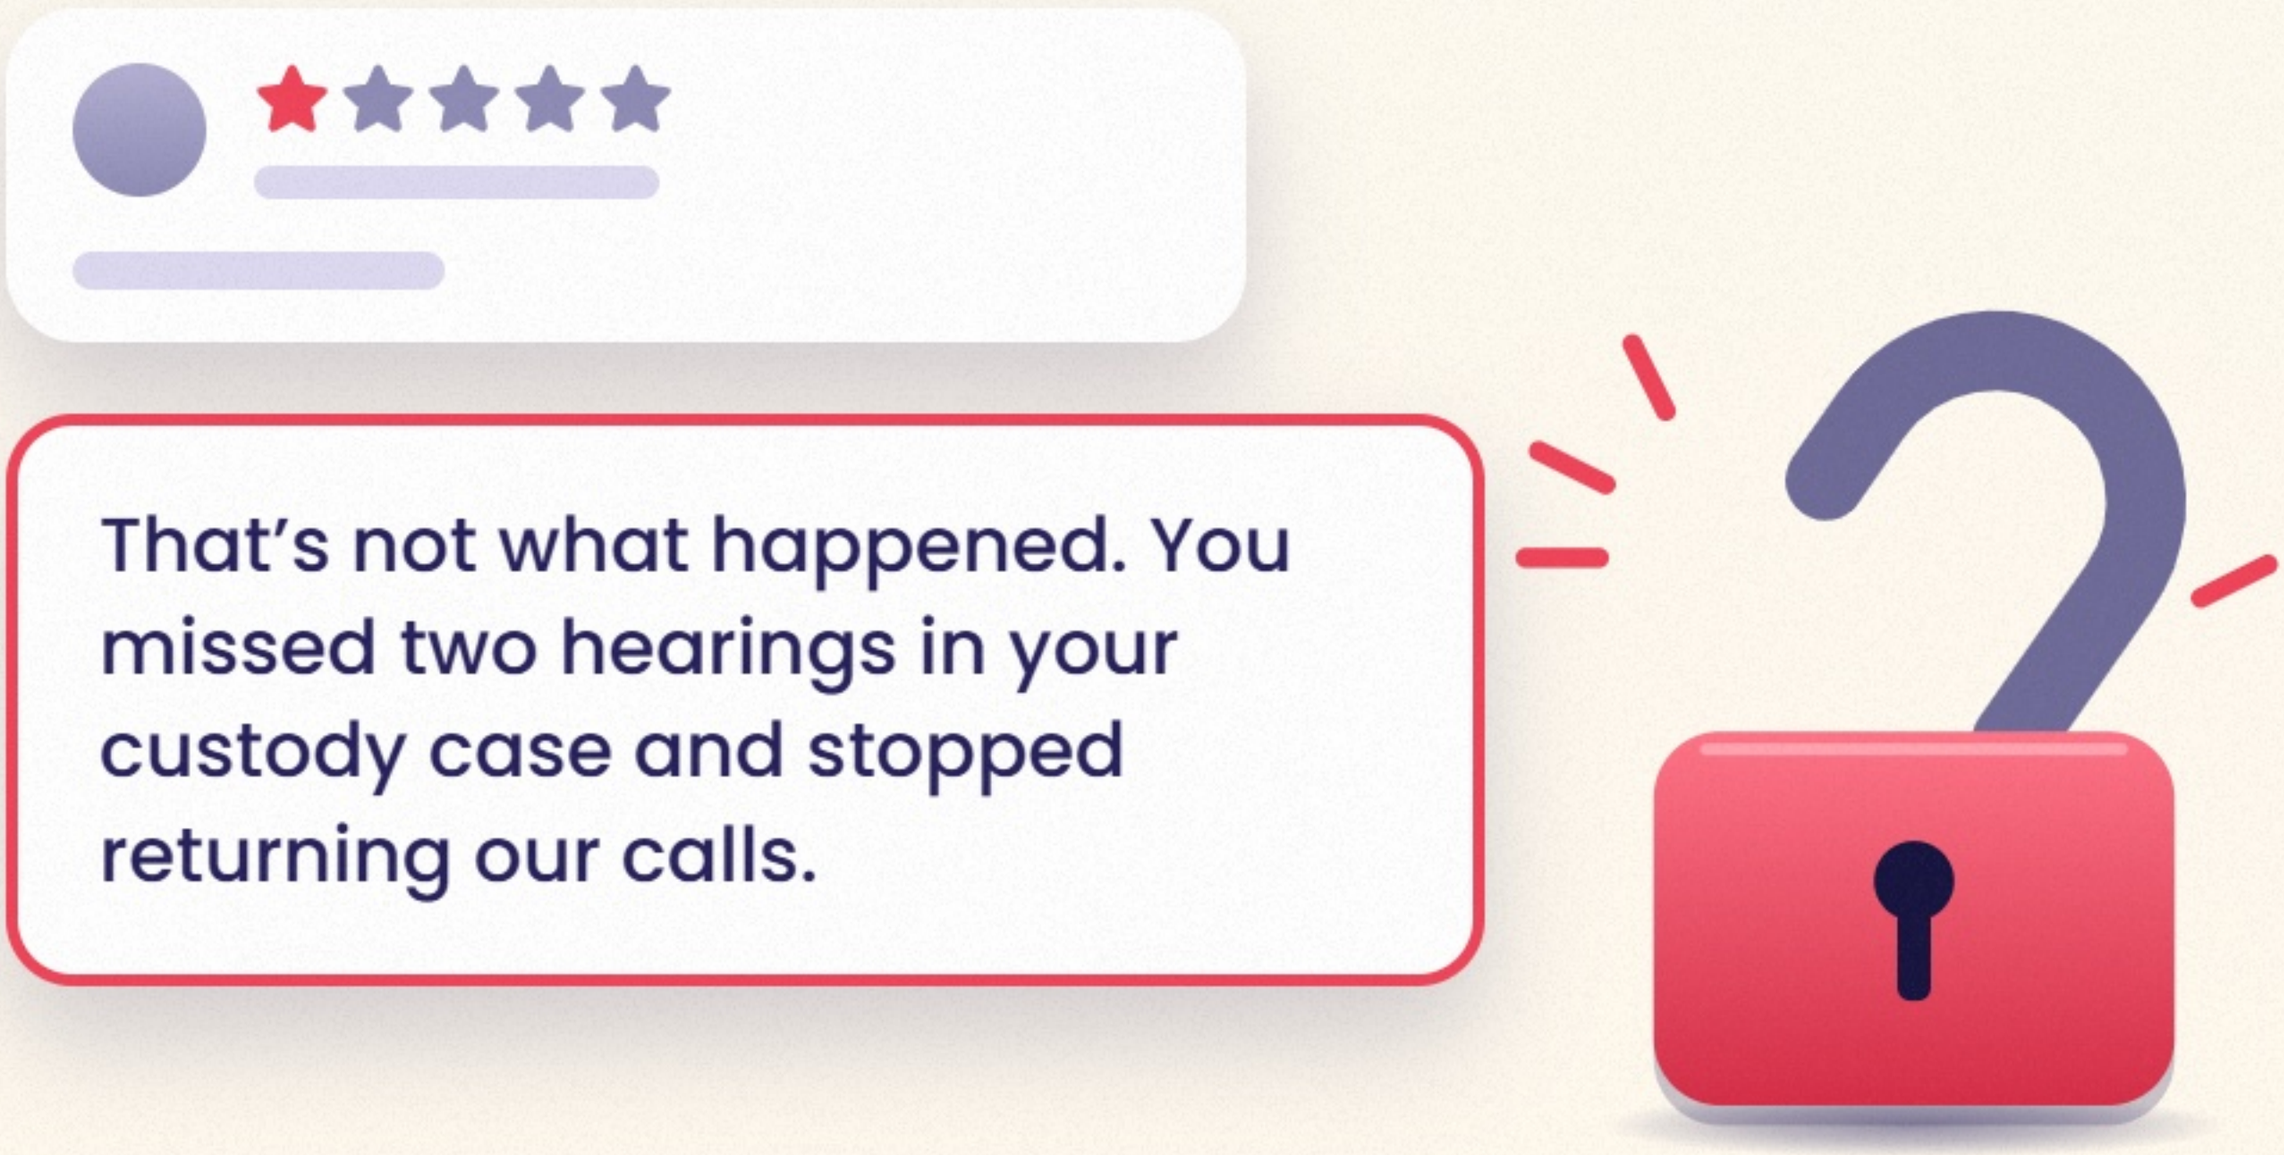

RUBIKS TECHNOLOGY

BEFORE

# The reply that feels good to write.

It defends you. It also tells the world about their case.

RUBIKS
TECHNOLOGY

⚠ WHY IT'S RISKY

# Confidentiality still applies online.

Even if they posted first

Even if they're wrong

Even if you're right

A bad review doesn't cancel your duty.
Check your state's rules.

RUBIKS TECHNOLOGY

AFTER

# Thank. Stay general. Move it offline.

Thank you for the feedback. We take concerns like this seriously and would like to talk. Please call our office.

Safe to post

No names, no facts, no argument.

RUBIKS
TECHNOLOGY

KEEP ON FILE

# Three reply lines to keep on file.

1. “Thank you for sharing this. We’d like to understand what happened. Please call our office.”

2. “We take feedback seriously. Professional rules keep us from discussing details here, but we’re glad to talk privately.”

3. “We don’t recognize this situation and want to look into it. Please contact our office directly.”

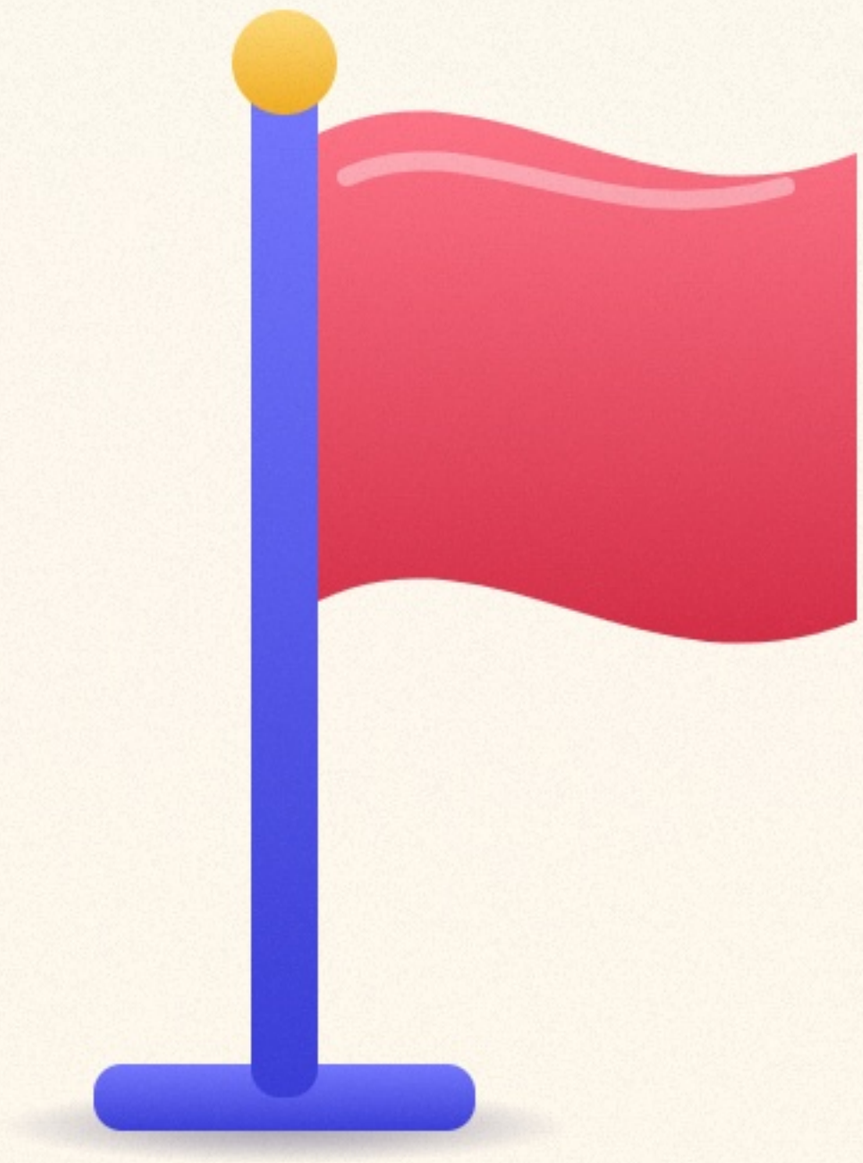

Copy them. Change nothing about the case.

RUBIKS TECHNOLOGY

WHEN TO FLAG

# Some reviews shouldn’t get a reply. Flag them.

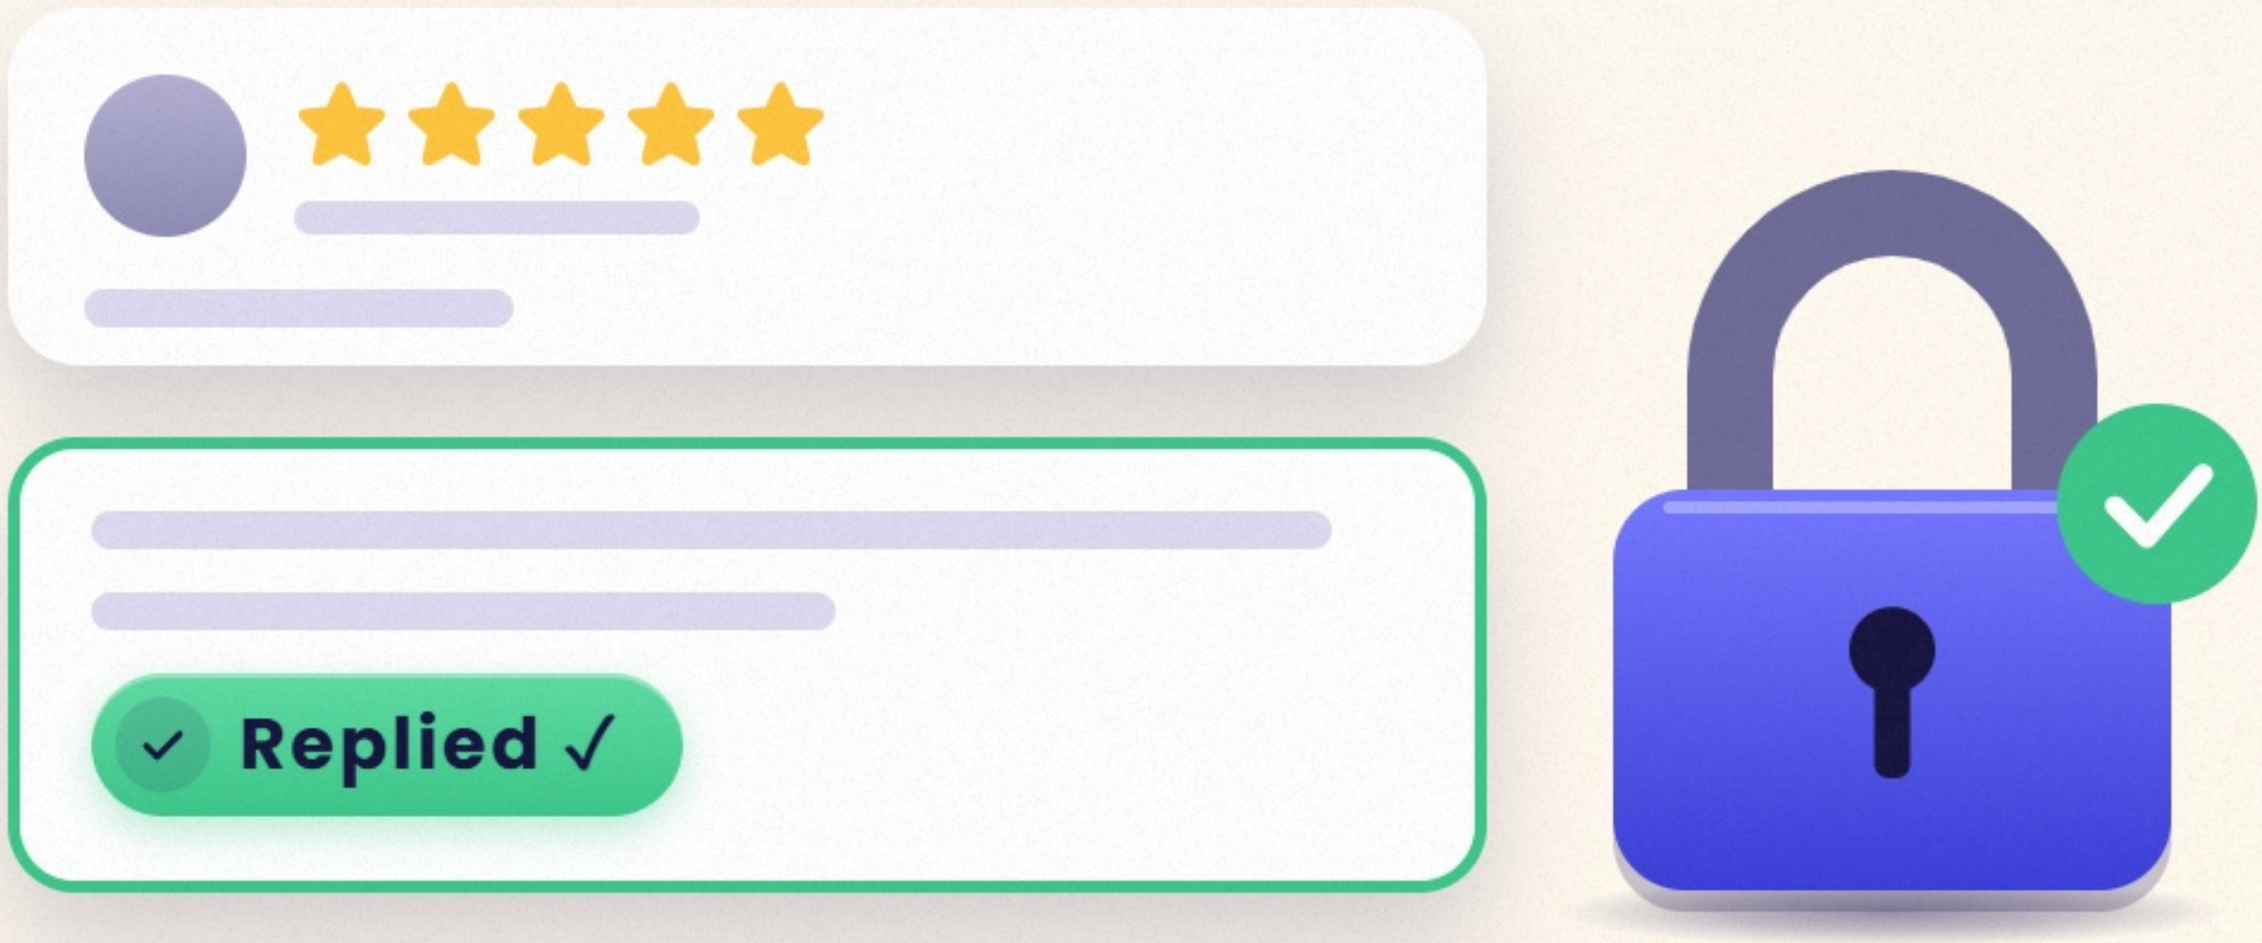

- Not a real client
- A competitor or spam
- Threats or hate speech

Report it to the platform. Don’t argue with it.

RUBIKS
TECHNOLOGY

# Want a review plan your whole office can follow?
